### Old Business:

The painting of the repeater shack inside was not done. The installation of a bolt lock in the shack also was not done. We talked about moving the 440 antenna higher on the tower and replacing the coax with LMR400 for less loss. Then install an "N" connector on one end and a PL-259 on the other end to eliminate loss from adapters. The purchase is dependent on getting someone to climb the tower to install the coax and move the antenna farther up.

### New Business:

For field day we will try to find some "Ham Sticks" of various lengths. A di-pole will be available too. The next meeting will be July 14<sup>th</sup>, same place and time.

Meeting closed at 2:27pm and snacks were served.
